

The Encapsulated Ceiling Panel (ECP) was developed for a particulate free environment. It serves a serious need for the entire medical industry where a clean room application is necessary. It is a must for pharmaceutical laboratories and clean room production areas where sterile products are manufactured for the health care industry.

Size is dependent upon your ceiling grid system.

CORE
Drywall

FACING
Vinyl
Stipple 20 oz.
Backing: Vinyl Reinforced Foil

SIZES
2'x2 or 2x4

MOUNTING
Mounted in your ceiling grid system

EDGES
Encapsulated

FIRE RATING
ASTM E84 Class "A" materials

NEW – Worlds Best Encapsulated Ceiling Panel

This panel combines acoustically correct fabric facing with sound absorbing acoustic fiberglass panels to make the perfect computer room panel.

The bonded edge flap acts as a gasket for each panel.
